

## Dialectic

<https://en.wikipedia.org/wiki/Dialectic>

### Old

Socrates

Aristotle

### Modern

Marx and Engels both had versions in use in their day

Hegel –Germany (1800s)

- New approach named after him:

**Thesis**- giving rise to its reaction

**Antithesis**- which contradicts or negates the thesis

**Synthesis**- the tension between the two being resolved by means of a synthesis (blending or position to move to an ultimate position)

Think of these words:

Abstract | Negative | Concrete the same as:

Thesis | Antithesis | Synthesis

### As a Political and Cultural Tool:

*“You never let a serious crisis go to waste. And what I mean by that it's an opportunity to do things you think you could not do before”*

--Rahm Emmanuel

The dialectic works very well here:

**Thesis:** HealthCare System is Broken

**Antithesis:** National/Universal Health Plan

**Synthesis:** Obamacare
