

Had to listen to today's show a second time. Still wound up about to chew my pencil in half. I agree with everything you said coach. I don't know if you remember, but when I was trying to rent a room for you to come over to speak at my church they told me you didn't follow their Doctrine. Over the last several shows the Lord has shown me that Doctrine is the devil's spy for getting into the church to deceive the church. There is only one truth so how can there be so many doctrines, how can they all be the right one, when you said to know your enemy having been in the military that's all they talk about was knowing our enemy. So I got to thinking about that and see that the doctrine is my enemy. Church of God Doctrine, Baptist Doctrine, Pentecostal Doctrine, Doctrine is the enemy. If we're going to confront the enemy I can't see any other way but to start confronting the churches. We're here out trying to show people the Lord win them over to the Lord and take them to church and then the spirit of doctrine has his arms wide open waiting to confuse and deceive this new convert.

When you come to Town I hope that there will be some time that we can talk strategy for the Indiana Brigade. I have some ideas but my wife said sometimes I need to tone it down so I might need to bounce these ideas to you first, I might be too aggressive in my ideas. You're right we are losing the fight. We are loving them right to hell.
