

How to kill a patient the Fauci way

#### ISOLATE

From family, friends & legal counsel

#### WITHHOLD

Effective established treatment such as Ivermectin, Hydroxychloroquine, & quercetin Any nebulizers such as Budesonide, Albuterol, Ipratropium bromide, etc.

Also by forbidding cutting edge use of CAM (Complimentary & Alternative Medicine) natural medicines such as nebulized diluted: Lugols Iodine, Food Grade Peroxide, Yerba Santa decoction, (HyssopHealth) Lyposomal Oregano etc.

IV high-dose Vitamin C, IV Ozone, etc.

#### SEDATE

With narcotics, tranquilizers & sleeping pills all disguised as addressing pain or anxiety. Pain management per big-pharma inventing "Pain as a 5<sup>th</sup> vital sign" at the turn of this century. This twisted marketing scheme exponentially accelerated the epidemic of narcotic addiction and overdose deaths still plaguing this country today. Sedation depresses respirations falsely lowering pulse-oximeter readings. Sedation also often renders patients legally incompetent to consent.

#### HABITUATE

to high flow oxygen and powerful narcotics. Oxygen is the universal oxidizer stealing electrons, corroding & rusting inorganic metals and acidifying organic life. We breath only 21% oxygen because higher concentrations can be dangerous or even deadly as well as habit forming. Getting used to high concentrations of oxygen renders normal 21% room air oxygen uncomfortable.

#### SUPPRESS

Their immune system & adrenal glands with very high dose steroids, & a fake vax that wipe out native antibodies. High dose oxygen suppresses normal oxygen drive under certain circumstances.

#### PARALYZE

with Precedex, vancuronium etc

#### POISON

with Remdesivir, renal toxic antibiotics like aminoglycosides sych as vancomycin or gentamycin etc.
