Do Facemasks Work?

We are breaking with routine in this month's newsletter. We feel it is imperative that Christians understand the manipulation our government has engaged in. Scripture tells us "My people are destroyed for a lack of knowledge." Our goal is to help inform you of the manipulation that is taking place in this **Scare-demic** that has paralyzed the world. We have copied for you **evidence regarding the wearing of facemasks** and pray that you make informed decisions regarding the choices you make. If we blindly follow "health department orders" what will be our **response to MADATORY vaccinations?** Please be informed and allow the Holy Spirit to direct your decisions. For more info <https://www.globalresearch.ca/twenty-reasons-mandatory-face-masks-are-unsafe-ineffective-and-immoral/5735171>

Nine Potential and Proven Dangers to Muzzling Yourself

1. Cavities: New York dentists are reporting that half their patients are suffering decaying teeth, receding gum lines and seriously sour breath from wearing masks.
2. Facial Deformities: Masking children triggers mouth breathing which has been shown to cause "long, narrow faces, narrow mouths, high palatal vaults, dental malocclusion, gummy smiles, and many other unattractive facial features," according to the Journal of General Dentistry.
3. Acne Vulgaris: Moisture and germs collecting in the mask cause "facial skin lesions, irritant dermatitis... or worsening acne."
4. Increased Risk of COVID-19: "Mask use by the general public could be associated with a theoretical elevated risk of COVID-19 through... self-contamination," states Public Health Ontario in Wearing Masks in Public and COVID-19. "By wearing a mask, the exhaled viruses will not be able to escape and will concentrate in the nasal passages, enter the olfactory nerves and travel into the brain."
5. Bacterial Pneumonia: Dr. James Meehan, MD testified: "Reports coming from my colleagues all over the world are suggesting that the bacterial pneumonias are on the rise."
6. Immune Suppressing: Masks produce subconscious anxiety and fear. Fear and anxiety activate the fight-or-flight nervous system which down-regulates the immune system.
7. Germophobia: Masks create an irrational fear of germs and a false sense of protection from disease, leading to antisocial (or even hostile) behavior towards those not wearing a mask.
8. Toxic: Many (if not most) masks and face coverings (including cloth) are made with toxic and carcinogenic chemicals.
9. Psychologically Harmful: "I believe the real threat right now is what we're doing to sabotage the mental, emotional and physical health... writes Dr. Joseph Mercola of Mercola.com."

Six Proofs Masks Do Not Reduce Infections

When did
"flatten the curve",
become,
"Stay home until you
accept *communism*?"

1. Insubstantial: A CDC-funded review on masking in May 2020 "Evidence from 14 randomized controlled trials of these measures did not support a substantial effect on transmission of laboratory-confirmed influenza."

2. Unreasonable: "Evidence that masking as a source [of] control results in any material reduction in transmission was scant, anecdotal, and, in the overall, lacking."

3. Ineffective: "Oral masks in healthy individuals are ineffective against the spread of viral infections," write The American Institute of Stress, September 24, 2020.

4. Unsanitary: "It has never been shown that wearing surgical face masks decreases postoperative wound infections," writes the World Journal of Surgery.

5. No Protection: "There were 17 eligible studies... None of the studies established a conclusive relationship between mask/respirator use and protection against influenza infection."

6. Unproven: Dutch Minister for Medical Care asserted that "from a medical perspective there is no proven effectiveness of masks" July 29, 2020 (according to Reuters).

Five Ways Forced Masking is Immoral

1. Reckless: "By making mask-wearing recommendations and policies for the general public, or by expressly condoning the practice, governments have both ignored the scientific evidence and done the opposite of following the precautionary principle," writes Denis Rancourt, PhD in his 2020 paper Masks Don't Work.

2. Manipulative: Dr. Andreas Voss, member of the World Health Organization states that masks were made mandatory "not because of scientific evidence, but because of political pressure and public opinion."

3. Fear-Mongering: "In fact, there is no study to even suggest that it makes any sense for healthy individuals to wear masks in public," write Drs. Karina Reiss, "One might suspect that the only political reason for enforcing the measure is to foster fear in the population."

4. Totalitarian: "If you look at the history of totalitarian regimes... they all do the same thing, which is they try to crush culture, and crush any evidence of self-expression..." explains Robert F. Kennedy, Jr.

5. Virtue-Signaling: "Masks are utterly useless," testified Dr. Roger Hodkinson, "...masks are simply virtue-signaling."
