

The deceiver comes in sheep's clothing to have his lies recognized as truths, so we must be vigilant and continue to discern areas that he has influenced and is currently influencing. I believe that the blood that we talk about being used as currency is funding groups and technologies to bring the old-gods back.

"For our struggle is not against flesh and blood, but against the rulers, against the authorities, against the powers of this dark world and against the spiritual forces of evil in the heavenly realms." *Eph. 6:12*

## Background

"And they had a king over them, which is the angel of the bottomless pit, whose name in the Hebrew tongue is Abaddon, but in the Greek tongue hath his name Apollyon." *KJV Rev. 9:11*

Nimrod, his evil wife Semiramis and her offspring Tammuz (or Nimrod the Sun-god reborn) have been worshipped by many cultures including the Vikings; Christians should be aware since their idols are everywhere.

For instance, Frigga, the Norse god-queen, known as the wife of Odin is another alias of Nimrod's wife and mother Semiramis. These false gods are still referenced in movies and on TV to keep these vile names alive. These are the deceptions used through time and are indicative of the "gods" that will be released when peace is removed in the "endtimes".

This information related to Nimrod's era is relevant and important for the Body of Christ to discern since the elite has plans to use DNA from Gilgamesh's tomb to reanimate Nimrod to "rule" in some capacity during end-times.

### **CERN and the Bottomless Pit**

Is CERN the doorway for the bottomless pit mentioned in the Bible? Will an Angel provide the missing link of knowledge or key when the time is come? In addition to the satanic statues of the pagan goddess Shiva at the entrance of CERN, here are three considerations:

1. God says that "Apollyon" will emerge from a bottomless pit. Historians and theologians agree that this bottomless pit is located in Geneva, Switzerland under the CERN collider and I believe that someday, Jesus will dispatch an Angel with a key to "open it". The scriptures say:

“To him [the angel, “star from heaven] was given the key of the bottomless pit. And he opened the bottomless pit... ” *Revelations 9:1*

2. Coincidentally, a town in France where CERN is partially situated is called “Saint-Genus-Poilly.” The name Pouilly comes from the Latin “Appolliacum” and it is believed that in Roman times a temple existed in honor of Apollo, and the people who lived there believed that it is a gateway to the underworld. It is interesting to note that CERN is built on the same spot.

3. Note the CERN logo has symbols 666 in it ... I'm not making this stuff up...

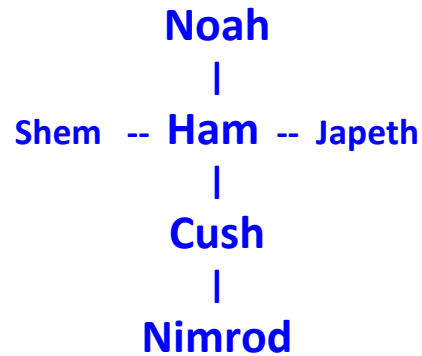

"Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and **his number is Six hundred threescore and six.**" *Rev. 13:18*

**Nimrod**

God says,

Cush was the father of Nimrod, who grew to be a mighty warrior on the Earth. He was a mighty hunter before the LORD; *Genesis 10:8-10*

- Noah -> Ham -> Cush -> Nimrod -> Tammuz
- After Cush died, Nimrod marries his mother, Semiramis , Cush's wife;
- Nimrod and Semiramis reign over all nations until Nimrod's death; then,
- Semiramis and Tammuz reign over all nations and their legacies live on in our traditions, movies and educational system.

### ***More of the story...***

- Nimrod was declared to be Baal, the Akkadian version of this name is “Bel” as in BaBEL;
- Pastor John Benefiel teaches in his book Binding the Strongman over America that the father of Baal was El;
- There are others who say that both Nimrod and Cush claimed to be Baal;
- Cush became disgraced and Semiramis decided that it would be better to be queen instead of queen-mother, so she did the unthinkable; she married her son;
- Eventually, Nimrod’s great-uncle, Shem, got fed up with his son’s idolatry and claims of immortality, so he slew him.

### **Semiramis**

- declared herself the "Queen of Heaven"
- The title, Queen of Heaven, has long been a Catholic tradition, included in prayers and devotional literature, and seen in Western art in the subject of the Coronation of the Virgin, from the High Middle Ages, long before it was given a formal definition status by the Church.

- “Queen of Heaven”, is mentioned in the [Book of Jeremiah five times](#)

## Tammuz

Tammuz is historically known as the son of Nimrod and Semiramis:

- after Nimrod was killed he was transformed into the sun god, Baal;
- Nimrod's wife/mother Semiramis was also transformed and known as the sun goddess, Ishtar, pronounced "Easter";
- Semiramis claimed to have a "divine conception" by the spirit of Nimrod and bore Tammuz, meaning “heat”, fire or hottest season in Hebrew;
- based on this lore, Nimrod was reborn from an immaculate conception to be worshipped as Baal, a god in the flesh and the son of the father in one being;
  - This parallels Jesus birth and resurrection
  - Do Catholics actually worship Semiramis ? "Mary"?

## The world still worships Tammuz/Nimrod => Baal...

- Semiramis proclaimed that the spirit of Baal (sun gods Nimrod and Tammuz) would be present in the form of a flame or lamp in any religious ceremony hereafter;
- Semiramis and her followers celebrated the same traditional Easter and Christmas idolatry as we do in reverence to the ascension of Nimrod to god-status and birth of Tammuz recognized as Nimrod (Baal) reborn in the flesh;
  - The Jewish month of Tammuz is when Easter is celebrated;
  - Semiramis supposedly was transformed and returned to Earth in an egg and since Tammuz loved rabbits... this idolatry was added to the ceremonial time and these idols are worshipped still today by many sheeple;
  - Semiramis initiated the ritual of placing offerings under an evergreen tree in remembrance of the gift of her god-son's birth.

## Symbolism

- TRINITARIAN ORIGINS BABEL: The triangle and triquetra in religious imagery represents the principles of creation, preservation, and destruction. Babel’s Trinity, Nimrod,

Semiramis, and Tammuz are also reflected in the Hindu trinity of Brahma, Vishnu, and Shiva;

- The crescent moon symbol has been taken to symbolize a faith group called Islam since the 7th century;
- The crescent and star symbol has sexual meaning that is part of Hinduism's three principles of creation, sustenance, and destruction. We do not bow down to symbols or objects representing the host of heaven. Many cultures adopted the old religion of Babel, Nimrod, Semiramis, and Tammuz;
- The Hindu trinity's crescent and star is Shiva (Tammuz) and is the symbol for Islam. The worship of Shiva arrived in the Middle East eventually, bringing the symbols of Shiva and Shakti with it. The crescent represents Shiva, and the star is Shakti. The two together represent sexual union;

Nimrod's name has been changed based on the variety of languages and over the time that he ruled and I wanted to piece together the many names of "god-kings" that were used to worship Nimrod to help us be more aware of this end-times beast mentioned in scriptures. ### Connection between Tammuz and Allah?

#### [Archeologists Discover A 4000 Year Old Archeological Find Linking Allah To Lucifer And The “Harlot Religion”](#)

Ishtar or “the queen of harlots” goddess was found mentioned more clearly in this cuneiform than those on any other unearthed tablets. Linking Ishtar to other archaeological relics, also written in the same cuneiform is the Epic of Atrahasis cuneiform dating just as far back in ancient history (1700-1800 B.C.), which reveal that this ancient deity known as Ishtar and the snake beast god known as Ishtaran another name for “Allah” who is literally mentioned in the epic by name and was a transvestite (dual male and female nature).

The *The Epic of Atrahasis* is the [Mesopotamian](#) account of the [Great Flood](#), which was a corruption of the biblical account in Genesis where Satan rebelled against Yahweh. **The amazing epic translated by archeologists who did not**

coverup the name “Allah” at the beginning of the epic where all of the gods are laboring in slavery for the head deity, Enlil, and then one rebellious deity named “Allah” then revolts against Enlil where Enlil crushes the rebellion and then defeats Allah who was also called Tammuz in Sumerian mythology.

[Sumerian inscription identifying Alla with Tammuz](#), who was a god of fertility and the consort of Inanna, who is identified by scholars with Ishtar, Venus, Isis and other goddess cults. The various goddess cults are frequently identified with the moon, and Tammuz was said to be an archer, both of which points may help explain the crescent symbol of Islam, if Shoebat is correct.

Tammuz is mentioned in the Bible, in Ezekiel 8:14-15 (NIV translation): “Then he brought me to the entrance of the north gate of the house of the Lord, and I saw women sitting there, **mourning the god Tammuz**\*. He said to me, ‘Do you see this, son of man? You will see things that are even more detestable than this.’”

\*“**Mourning the god Tammuz**” refers to one of the annual festivals of the cult, in which the god was said to be killed. Being a fertility god, the “killing” was a metaphor for the summer and the annual dying of the crops. The other major festival had to do with the god’s “marriage,” which presaged a fertile year for farmers. Both festivals were apparently marked by rituals that included sex with the temple priestesses, thus their reputation would have been shocking to the Israelites.

In summary, Semiramis, the "Queen of Heaven" and "Whore of Babylon" called herself a virgin even though she had a son named Tammuz, she later became Ishtar, Venus, Aphrodite, Al Uzzah etc. she is the counterfeit Mary that the Catholics worship and is not the real Mary, mother of Jesus Christ thus we see how Satan fools the Masons and the world into thinking Semiramis is the mother of Christ, when she is really the mother of Tammuz who she claims to be the reincarnation of Nimrod, her husband who Shem son of Noah killed
