

Are folks being told "externally" to become transhuman?

<https://davidicke.com/2021/09/10/words-in-your-head-how-they-are-telling-you-to-get-the-vaccine-david-icke-dot-connector-video-cast/>

I suspected this and more. I'm quite familiar with this technology that continues to be advanced upon. Now being used in civilians to progress their depopulation agenda.

VOG weapon back in 2007. Used in the Middle East wars... Quite publically.

<https://www.wired.com/2007/12/the-voice-of-go/amp>

Read for yourselves...

<https://www.forbes.com/sites/markcancian/2020/09/18/will-dod-deploy-a-heat-ray-and-the-voice-of-god-against-demonstrators/>

<https://www.defenseone.com/technology/2018/03/us-military-making-lasers-create-voices-out-thin-air/146824/>

And then there's this that I've been pondering...

Here's something for you... Ever heard of "carbon nano tubes"... One use, Chem trails, BAE Systems developed a sky mirror made from these little guys, deposited in the sky via SAI, to spy on the enemy. Technology? This is known as the LASER HAARP system which came after the RF/Microwave HAARP and after the Audio HAARP System that BAE developed with Tesla...

<https://www.baesystems.com/en-us/article/directed-energy-atmospheric-lens-could-revolutionise-future-battlefields>

How does this tie in?

Look at the structure and electrical use of CARBON nano tubes... Imagine if these CARBON nano tubes were, say, oh... metal nano tubes... Or... Dare say it, graphene nano tubes?

Look at the structure

Electrical Conductivity

<https://www.cheaptubes.com/carbon-nanotubes-properties-and-applications/>

the jab graphene nano particles are formed in the shape of hollow hexagons... Like little bitty antenna Arrays

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7577689/>

<https://www.graphene-info.com/graphene-oxide>

How would you know how many nano particles of graphene is in each jab? How do you measure the quantity of graphene nano particles shaped like little bitty 6 6 6 's? There are 10,000,000,000 nano graphene particles per jab.

Here's a nano-bio-manufacturer that builds "AccuSizers" for pharmaceutical companies.

I'm helping with IEC-62443 zoning for their global laboratory networks that have connected AccuSizer to cloud services. It all can be hacked.
