

The Bible tells us that October 31st is the beginning of the Flood by following the information contained in the **story** no let's rephrase that to the **accounting** of the facts of the Flood.

Genesis chapter 7 is accounting of the beginning of the Flood.

Here is the basic's.

If you want to understand how I got to this conclusion, [read the following paragraphs after](#) these 5 basic's claims and open the attachment. Please feel free to share with others if you come to the same conclusions.

1. Noah's Birthday = Jewish month Tishrei 1st day.
2. The Great Flood starts on 2nd month 17th day according to **Genesis 7:11**. When that Hebrew day is converted to our current calendar it turns out to be Oct. 31 / Nov 1st. The first month of the Jewish calendar is Tishrei, and the 2nd month is called Cheshvan. So the 17th day of the 2nd month is Cheshvan 17th.
3. Jesus rises from the grave on Nissian 17th. Nissian is the 7th month in the calendar. Nissan 14th is the passover the night when Moses put the blood over the Lintel of the doorway and all firstborn were killed in Egypt. **Genesis 8:4**
4. Waters decreased continually on the earth till the 1st day of the 10th month were the tops of the Mountains were seen. **Genesis 8:5** It came to pass, ***at the end of 40***

days, Noah opened the window of the Ark. The 10 month & 1st day **add 40 days** to that and it = 11 month 10th day. The 11th month of the Jewish Calendar is called - **Av**. The **9th of Av** in Jewish history is a bad day for the Jewish people. Both Holy Jewish Temples of Solomon's & Herod's were destroyed. It's reported that Christopher Columbus had to wait a few extra days before leaving port because all the Jews were commanded to leave Spain by the 9th of Av. ** we just celebrated Columbus Day yesterday. The **9th of Av** usually falls on **July** and **August** in our calendar. Plenty of time to set sail and land in the New World by end of September beginning of October timeframe.

5. On the 27th day of the 2nd month the earth was dried and God told Noah to leave the Ark. If we were correct on our hypothesis that the first day of the Flood started on October 31/Nov 1, (17th day of the 2nd month) and Noah left the Ark on the 27th day of 2nd month then you will need to add 10 days from the flood's beginning day and you come to November 11th. We understand the 11 is a very occultist number. Many **well known events** have fallen on November 11th. World War One Armistice was signed on the 11th month (November) on the 11th day at the 11th hour.

Mayflower Compact signed on November 11th 1620 which will be the 400th year anniversary this year.

1st **the timeline of the Flood is determined by referencing Noah's age, not the age of the Earth.** The flood begins when Noah is 600 years old but does not say in Chapter 7 which **Date** it was when He turned 600 years old (Genesis 7:11). You have to go to Genesis 8:13 to find out **Noah's birthdate** because on His 601st birthday on the 1st Month on the 1st day the "waters were dried up from the earth and Noah removed the covering of the of the Ark". This is referencing Noah's birthday.

The Next piece of information is in Genesis 8:14 – 15 Noah stays on the Ark even though the ground is dry till he is Told by God on the **2nd month on the 27th day** to leave the Ark. So for 57 days Noah and his family stay put on the Ark because on the 1st day of the 1st Month in the 601st year of Noah's life he took off the covering of the Ark and saw dry ground.

In the Days of the Flood the Earth circumvented the Sun in 12 months of equal 30 days per month in length, making a 360 degree completion – a perfect circling of the Sun. The Biblical beginning month of the calendar was called Tishrei 1. Tishrei had 30 days just like all the remaining 11 months to **make a perfect** 360 circular day rotation around the Sun. Therefore we can interpret Tishrei 1 as Noah's Birthday. For us today we celebrate this is as Yom Kippur – the Day of Attonement and the Begining of the New Jewish year on the Calendar. Of note - this is why Bible Prophecy is related to time of 360 day

increment's for a full completion of a year not 365 ¼ days as our present calendar.

Tishrei 1 = First day of the New Year and is Noah's B-day.

Next piece of the riddle (just like in the book of Samson) – the Jewish Calendar doesn't correspond to our modern calendar. It follows the Moon cycle. The Flood was not only devastation to the Earth but the Moon. If the reckoning of time was calculated by the circulating of the Earth around the Sun in 360 days, the Moon would be going in perfect phase around the earth **in 30 day cycles also**, making the month in length of days of a moon cycle a perfect 30 day completion. Currently the Moon has **27.322 days** to complete a full cycle. But we need to consider that when God formed the Earth and solar system it was balanced in perfect 360 day orbits. So the flood event & Joshua's long Day had catastrophic effects on the reckoning of time. So the Mid point of the Month in Noah's day would be the 15th of the Month. The New Moon which is when you first see the Sun's light reflection on the moon would occur on the 15th of the Month. The full visible Moon would be on the 30th of the Month completing the cycle and it would get dimmer each night till it was dark on the 14th of the month when no sunlight reflected off the Sun at night.

So let's get back to The Flood occurring on our current calendar being October 31st / November 1st. **Please refer to attachment which is a conversion chart from Jewish Months to our Current Day Months (attachment 1)**. We can see that Tisheri 1 should fall in

the Middle of our Month September 15th. Therefore, Tishrei 1 ran from September 15th – October 14th = the 1st month in our timeline.

The 2nd Jewish Month of Chesvan ran from October 15th till November 14th.

So in Genesis 7:11 it states the Flood began on the 2nd Month on the 17th day we need to convert that to our calendar. October 15th plus 17 days will add up to October 32. **Well** we don't have 32 days in October but we do have 31. So that puts it on the Night in which we transfer the day from the 31st to November 1st which is our Halloween.

But it doesn't stop there. In Genesis 8:4 it states "the ark rested on land on in the 7th month on the 17th day. What month is that in the Jewish calendar – Nissan. When did the Plague hit Egypt – the 14th of Nissan celebrated as the Passover. Christ was killed on the Passover and spent 3 days in the grave and rose when ?? on the 17th of Nissan the same day the Ark touched solid ground.

But wait !!!! it doesn't stop there. Genesis 8:4 on the 10th month on the 1st day of the month the tops of the Mountain were seen. Genesis 8:6-7 says Noah waited 40 days then he sent out a **Raven** which kept going **To & Fro** !!! Let's add 40 days to the 1st day of the 10 month that = the 11th month and the 10th day. This is the Month of Av. What is so profound in Jewish history in the Month of Av ? The 9th of Av !!! The day that both Temples were destroyed !!! Now brother that's a random chance of coincidence !!!! But the 9th of Av is a profound day of many

bad things happening to the Jewish people in documented history— just research it yourself.

But wait !!!! In Genesis 8:14 Noah leaves the Ark on the 2nd month on the 27th day. Now lets use our timeline. If were correct that the 17th day of the second month is Oct.31 / Nov. 1 lets add the extra 10 days to when the Flood started a year ago and find out what day that is – well by golly it's November 11th. Which is our 11th day of the 11th Month. What great things happened on the day. Well in 1918 on the 11th hour on the 11th day of the 11th month of November was the official ending of World War One. What a coincidence. But wait !!! - the Mayflower Compact was signed on 1620 on November 11th. It's not recorded what time they signed it but would it be a hoot if it was at 11 am. Oh well I guess well have to find out on the other side of Heaven if It Be So.

Ironically were getting ready to celebrate the 400th year of the signing of that Covenant with God in this land called America. Make sure you go back and read the Mayflower Compact's wording **see attachment**. ***It's not a Contract with America*** like Newt Gingrich did with Elections in 1994, ***but a Covenant with God with those*** who signed it. I would reference reading in the Bible about making vow's with God; Deuteronomy 23:23, Ecclesiastes 5:4-8, Numbers 30:2, etc. **God keeps** his side of the bargain when he covenants with man, but we as a people usually don't over time or generations.

WOW - I'm glad I am done with all this but wait !!!!

This **month of October 2020** has **2 full moons!!** We just had one on October 1st and a Blue Moon / Hunters Moon will occur on October 31st **just by coincidence** landing on Halloween night. How about that folks.

Do you know the last time we had this cycle where a full moon landing in the month of October 2 times and a full moon was happened on Halloween night ?? Can you say **October 31, 1944 or 75 years ago**. Well what was going on back then ? The world was at the beginning stages of the end of WW2. The Jewish State would be voted in by the newly formed United Nations a couple of years later in November of the year 1947. The Jewish State of Israel would exist 6 months later in May 15th 1948, but wait – **what a coincidence right dab in the Middle of the Month beginning of a new moon** (remember our Jewish months start in the Middle of our Months from our timeline). UFO's and alien encounters started happening in the years after the war ie: Roswell, etc.

Concluding – I hope I have made the case for everyone to ponder the following, by using the scriptures as the Authority for the times we are Living In.

God Bless
