

When Rome took control of the Christian world...they proceeded to remove everything Hebraic from the faith. ..changing times dates even calendars. ..

THEN changing Pagan ceremonies with all their pagan trappings into so called Christian holidays...Christmas Easter....

THEN changing the Calendar...From New Year Nisan 1 March April...to January 1 and naming the calendar after Pope Gregory (the Gregorian Calendar).

AND this is the true meaning of APRIL FOOLS ...coined for those who continued on the TRADITIONAL calendar...They were called "April Fools"

..

SO, We wonder why SO Many DON'T believes us about Christmas and Easter AND NOW as we knew them, They now seem so empty

There is a law called "REAPING what we sow" it is plainly obvious God has had enough ...we must choose..His truth or this worlds..

I cannot believe that I get so much indifference or even push back on this Plainly obvious facts..from Christians.

Christians say does this really matter...duh...lets look what is happening.

Simply we have kept the Pagan Festivals alive for the day the Pagans come back and thank us ...and say "we want our Festivals back "thanks for keeping the bed warm".

Time preachers got real...It is a MAJOR issue... where do you stand..???

Lets nut this one out... and when you conclude it is true...if your a minister...what will you do???

I hear and read about churches that say they want to be "Edgy" be different be relevant"...maybe give being true to the Biblical timeline calendar and dates...a go!
